Polyrhythms of Music Therapy

World Congress of Music Therapy

ONLINE FROM SOUTH AFRICA

7 July – 8 July 2020

We are very excited to announce that we have redesigned the World Congress of Music Therapy 2020: South Africa so that you can attend despite the current difficulties being experienced globally.

The congress will take place online over two days. On the 7th and 8th July 2020 you can expect a jam-packed programme which will reflect a diverse range of paper presentations, workshops, and round tables that would have been offered at the in-person event.

We will feature a special student seminar, and you will be able to attend two daily spotlight sessions billed as a highlight of the programme. Items previously advertised as pre-congress seminars will be incorporated into the main programme.

Registration for the online congress entitles you to access ALL the presentations for a month after the congress. This means that if you are unable to attend all the sessions during the online congress, you will be able to peruse the entire congress content in your own time

For NEW REGISTRATIONS please go to <https://www.up.ac.za/music-therapy-2020> to find out more.
